

Explaining the Pro-Abortion Ballot Initiative.

America's largest abortion provider and out-of-state interests are leading an effort to create a **right to late-pregnancy abortion** in the Nebraska Constitution.

Abortion activists are gathering signatures to put a right to late-pregnancy abortion on the ballot in November of 2024. Nebraskans need to know how this proposal is dangerous, deceptive, and demeaning, and why it must be opposed.

1 DANGEROUS

- ✗ Fifty years of common-sense protections for women and girls against unsafe abortion practices would be eliminated, as illustrated by Michigan after they passed a similar initiative.
- ✗ Teenagers could access abortions without their parents' knowledge.
- ✗ It seeks to embed late-pregnancy abortion into the state constitution, despite evidence showing its high risks and trauma for women and girls.
- ✗ The legislature's ability to enact essential health and safety protections for moms and babies is jeopardized by the phrase "without interference of the state."

2 DECEPTIVE

- ✗ The pro-abortion amendment uses purposefully vague and abstract terms to drastically expand abortion in Nebraska.
- ✗ Terms like "viability" can be manipulated by abortionists and are defined so broadly that it will put healthy 2nd & 3rd-trimester babies at risk of being killed by abortion.
- ✗ Even babies who require basic neonatal health care could be categorized by an abortionist as not viable, and be aborted.
- ✗ Nebraska law already allows 1st-trimester abortion and provides exceptions for rape, incest, and the life of the mother, which is supported by over 60% of Nebraskans.

3 DEMEANING

- ✗ The abortion industry makes women feel afraid, isolated, and without options. This is at a time when trusted family, friends, churches, and Nebraskans want to support their pregnancy and parenting needs.
- ✗ The amendment is funded by out-of-state special interest groups, including America's largest abortion provider, which stands to profit financially from increased abortions in Nebraska.
- ✗ This proposal will create a culture that incentivizes and expects abortion rather than build a "culture of life" that seeks to fully support pregnant and parenting women, including those in the workplace.
